

TECHNOLOGY IN THE WRIGHT HANDS

PROVIDING TAILOR-MADE CORPORATE SECURITY

Wright Surveillance leads the field in video surveillance in South Africa. We provide comprehensive, integrated security solutions to an array of blue chip clients in the logistics, retail, manufacturing and service sectors.

Wright Surveillance is your end to end CCTV solution partner, offering CCTV planning, installation and maintenance through to offsite monitoring in our technologically advanced control room.

With over 20 years in the security industry, Wright Surveillance consultants have the experience & expertise to offer the WRIGHT solution that is tailored to our client's specific needs.

COMPANY PROFILE

Wright Surveillance is a leader in the South African CCTV surveillance & off-site monitoring industry, servicing a broad spectrum of the market with cutting edge security solutions. Our client base includes blue chip companies in the logistics, retail, manufacturing and service industries.

Wright Surveillance offers a comprehensive end-to-end solution: We work with clients to address their specific security needs and then plan, install, monitor and maintain their CCTV systems.

Our expert consultancy service ensures that clients are assured of a total integrated security package that provides the optimal solution to their security needs.

Wright Surveillance is among the pioneers of offsite CCTV monitoring in South Africa, and their vast experience ensures that their CCTV systems deliver as promised.

Directors Garth Wright, Gary Stephenson and Pasco Dyani spearhead a committed and passionate team that prides itself in delivering personalized service.

SERVICES

Wright Surveillance is your end to end CCTV solution partner, offering CCTV planning, installation and maintenance through to offsite monitoring in our technologically advanced control room. With over 20 years in the security industry, Wright Surveillance consultants have the experience and expertise to offer the WRIGHT solution that is tailored to your specific needs. Full onsite assessments facilitate delivery of optimised solutions to meet your unique needs.

- Installation - Highly qualified and experienced installation teams ensure complete control over project installation costs and quality, with seamless integration into onsite or offsite control rooms, superior image quality and system reliability.
- Offsite surveillance - We offer full time or event-based surveillance plus the option of virtual guard tours and supervision, access control and energy management. Our experienced surveillance team operate in a secure, offsite central monitoring station allowing optimum effectiveness.

TECHNOLOGY

Wright Surveillance's extensive experience in the field of offsite monitoring means that we're well aware of what technology delivers the "right results in the control room, and what doesn't". After using various products over the years, we've found affordable products and installation techniques that supersede all others on the market, and provide the best integration, image quality, speed and reliability – all essential components when looking to ensure the delivery of a superior security solution.

Traditional video codecs aren't designed for remote video surveillance applications. A Wright surveillance CCTV system offers a unique advantage over other CCTV systems due to the use of proprietary video compression technology supported by a proven track record in off-site surveillance.

With modern day technology, Wright Surveillance will develop a tailor made CCTV system that ensures an efficient preventative security solution.

PEOPLE

In business any system is only as good as the people that operate it. At Wright Surveillance we focus on the human factor in CCTV surveillance by using a selection process that ensures that we only employ the best people available and by running a comprehensive internal and external training program that ensures maximum skills levels.

CORPORATE SOCIAL RESPONSIBILITY

Wright Surveillance raises funds for a variety of children's charities every year. These include the E.P. Children's Home, Khayaletu Home for street children, MTR Smit Children's Home, Sabrina Love school for cerebral palsy and the "We Care" home for abandoned babies.

This fundraising project is spearheaded by Company Directors, Garth Wright and Gary Stephenson through their charity "Ironman For the Kidz", which raises money by way of corporate sponsorship of athletes competing in the international IronMan Competition held in Port Elizabeth. Total sponsorship has grown from humble beginnings in 2005, when R11 000 was raised, to R 1 500 000 in this year's event (2012).

BBBEE PROFILE

Wright Surveillance fully supports the governments economic empowerment initiative with a BBBEE rating at level one. This also means that you can claim 168% of your spend with Wright Surveillance towards your BBBEE accreditation.

Pasco Dyani, Chairman of Wright Surveillance, is widely respected, having been National President of the Chemical, Energy, Paper, Printing, Wood and Allied Workers Union for 16 years (1992-2008).
